### EXAMPLE PAPER

An example paper contains further information on how to format the paper, how to use pictures, tables, and references. We strongly suggest to use it as a template for your own paper.

### NUMBERING PAGES, HEADERS AND FOOTERS

Do not use page numbers. Final page numbers will be inserted by the publisher. If page numbering is on, turn it off. Do not use or set any headers or footers in the paper.

### GENERAL GUIDELINES TO WRITE YOUR FULL PAPER

**Please take note of these comments before writing your paper**

7. Make sure your **introduction** is appropriate. An introduction should give the general background for your research, and references to general literature on the subject for interested readers.
8. If necessary, use a **literature review** section to present and explain better concepts, previous work and the academic background of your paper.
9. End your paper with a section on **conclusions and further research** and recommendations. Your conclusions must be based on the material that can be found in the paper.
10. If you are not a native English speaker, have your English corrected before you send in your final paper.
